Catch Report

Just to let members know what species
are being caught at the moment.

Whiting, Cod, Turbot, wrasse,

Bass (to be released)

Pouting, Conger, Flounder, Gurnard,
Mackerel, Thornback Ray, Small Eyed Ray,

Coalfish, Conger, Mackrell

A Sad Farewell to Ralph

a message from our Chairman.

It's a sad time for us as we say goodbye to our friend and executive member who has helped to keep the federation for twenty odd years.

Its been my privilege to serve along side him all this time but fully understand his reasons for standing down.

Long overdue but just maybe we can encourage new blood to steer the federation into the years ahead.

Its been an uncertain time for everyone the last few years but lets look ahead to the future to keep fishing. Encourage youngsters and others to join us please.

You know that I'm talking about Mr Ralph Elcox sat next to me, prompting me and explaining things when we needed it.

Enjoy your retirement Ralph and of course Naomi who has helped out at so many presentations!

Please keep involved with the C.F.S.A if at all possible.

And may I remind everyone that Ralph has performed nearly all of his work over the years with pen and paper!

He has got Facebook and email now with the help of his smart phone!

Support the federation or lose it as Ralph has said before, 60 odd years would be a sad goodbye to.

Enjoy you fishing

Thank you

Jim Taylor

CFSA Treasurer & Website News

Hi to all CFSA members for 2023, I thought I should introduce myself to you all as I have taken over from Ralph Elcox as CFSA treasurer. Ralph has retired from his many roles within the CFSA and I know he will be a tough act to follow, but I will do my best.

My name is Jules Roseby. I am on Facebook as Pansy Potter and my email address is

pansyrose58@gmail.com

I am also website manager so if you have any suggestions as to how the site can be improved or you have any up to date club information or photos from your fishing sessions you don't mind sharing then please get in touch.

In am currently trying to get us up to date with internet banking ,once I have been named on our account, this will make it so much easier for those who wish to renew or join the C.F.S.A

CFSA Honorary Secretary & Shockleader

I would like to introduce myself to you all as I have taken over from Ralph Elcox as the new CFSA Honorary Secretary and Shockleader newsletter

Ralph has retired from his many roles and I will try my best to follow in his footsteps.

My Name is Julian Walsh and I will be your new contact for subscriptions/memberships and general club business. And enquiries

Julian Walsh

Behind The Scenes and Out & About

It has been a busy time for me getting to grips with the new role and getting updated with the C.F.S.A paperwork. We are now finally Digital. The CSFA rule book is now up to date and has been put on a digital format which we can now update when needed and can now be sent out to help to save us any unnecessary expenses. The paperwork has been updated and is also on digital format and headed and we now have the addition of a Parental permission slip for the use of Photos for our Junior Members. We finally have our own QR code which will take you straight to our CFSA website:

I have been busy sending out emails to companies, Bait suppliers, Tackle shops and our Charter Boats asking for if they wish to advertise in the Shockleader to not only help to promote their business but also to keep our members updated on the local Businesses around and of course to try and get the valuable funds back into our account and I have also been asking for donations for raffle prizes and competitions.

The response from this has been very good. If anyone wishes to advertise in the Shockleader and on our Business page to help advertise their Business for £25 please get in touch, Any business is suitable and if anyone wishes to make a donation thank you very much.

I have been around the local Bait Suppliers & Tackle Shops to help build a relationship with the CFSA, meeting with Jammy of Jammy's Sea Baits, Tracey, Dom and Margaret at Team Lowecky Angling, Alex and Ellis at Fishing Mayhem, Rob at Waterfront Shooting and Fishing Bude, Tim Hammond, Ryan and Sam at Gwineer Angling. I would just like to personally thank them all for the warm welcome and the support they have offered the C.F.S.A. I look forward to seeing you all again soon. I am planning to visit as many businesses as possible so please don't feel left out, I am trying my best with time restraints.

I have been visiting our affiliated clubs to not only show support but to help build a stronger relationship. I have managed to attend ECC Ports SAC's committee meeting as a representative of the CFSA on the 9th Jan, it was great to see them again, I received a warm welcome, nothing has changed I still had to get the kettle on. But seriously it was great to catch up with the guys and discuss ways we are trying to move

forward and try and find out if there are any issues or concerns to address, I am keen to get all feedback weather its positive or negative from everyone

On Thursday 12th I visited Tintagel SAC's AGM, There I also received a warm welcome, it was fantastic to meet new faces , This was however a different experience, It had A Bar! I stayed behind after talking to the guys and it would have been so easy to have stayed and have a good drink with them but unfortunately I was driving, I have been invited to their awards night in February so perhaps I can remedy that, looking forward to meeting again.

Monday 16th was our first committee meeting at St Dennis Working Men's Club, I timed it just right as Jim was getting his wallet out. Thanks Jim. It was good to meet EDD Schliffke for the first time and getting to know the other committee members.

Unfortunately I had to send my apologies to Cambourne SAC, I was due to attend theirs on Tuesday 17th but what with the snow and Ice I have rescheduled until next month.

I would like to apologise to any Clubs that I have not visited yet, I have only started the visits this month unfortunately we have 4 affiliated clubs that have their Committee Meetings the 1st Monday of the Month, I promise I will visit you all but unfortunately it will take a little longer with some clubs.

If any clubs I have not visited reschedule the date for any reason please can you let me know, I may be able to attend.

Thank you to the businesses for advertising in the Shockleader, this is not only to help promote your business but to help to support the CFSA.

If anyone wishes to advertise in the Shockleader 12 editions and on our business directory for £25 for the year or £100 for a full page advert pleas let me know.

Tintagel Sea Angling Association Bass Open 13th / 15th October

If you have any other open Dates can you please let me know thank you.

Conservation

Conservation is an increasing trend in recreational Sea Fishing with photos of dead fish often criticised on social media. Furthermore, some species must now be returned by law or should be conserved as they are recognised to be slow growing.

The CFSA take the conservation of fish stocks very seriously and would like to express that this has now become a major concern to keeping fish alive for everyone in the years to come. On this note we will ask that CFSA members do not take undersized catches from the sea. We also understand that sometimes the hook can be swallowed, and, in this case, it is best to cut the line as close to the hook end as safely as possible and return the specimen to the water. The hook will break down naturally and will generally cause no lasting harm to the fish. If you are unsure of the minimum weights of the species, please refer to our minimum weights sheet.

Fishing With Mobility Issues

Making Sea Fishing Accessible to All

The **CFSA** are keen to help to make Sea Fishing accessible to all and we are keen to help all of our members to not only enjoy but also to get the most of their fishing.

We realise that some of our members are struggling for places to fish due to mobility issues, although we live in a beautiful county with the coast on two sides unfortunately there are not that many places to fish if you have mobility issues.

With this in mind we have populated a list of suitable places to fish with the hope that this benefits our members and manages to get them out fishing more or even back to Fishing. Below are listed the areas which will be updated when we information on other Marks. If you have any suggestions for new marks please can you let us know, many thanks. Wheel Chair Marks will have a **W** after the name. **Please note some of these areas have a slope to access the marks and some ground is slightly uneven.**

Cornwall

ECC Ports Sac Par Harbour (ECC Ports Members Only) **W**, Charlestown **W**, Gollant **W**, Mevagissey **W**, The Old Slip Way Fowey **W**, Bodinnick Car Park Fowey **W**, The Bodinnick Ferry Slipway on both sides when the ferry is closed **W**, Porthkerris **W**, Gorran Haven, Fly Cellars at Newquay **W**, Newquay harbour wall **W**, Wadebridge Egloshayle playing fields on the right hand side of Anika's Bridge **W**, King Harry Ferry both sides when the ferry is closed **W**, Mylor Harbour **W**, Lamorna Cove, Flushing, Falmouth Price of Wales Pier railings fitted and accessible toilet start of Pier **W**, Greenbank Falmouth **W**, Falmouth Harbor **W**, Falmouth Custom House Quay **W**, Newlyn Harbour Wall **W**, St Ives Harbour Wall **W**, St Ives Pier **W**, Long Rock, Mount Edgecombe (Cremyll) **W**, Millbrook, Looe Banjo **W**, Wilcove and Jupiter Point, Moushole **W**, Coverack, Rear of Trago Falmouth **W**, Penzance behind the bus station and the whole of the prom **W**, Penzance Light house Quay **W**, The Quay behind ASDA in Hayle **W**, Porthallow, Saltash Pier, Mixstow. Weekly Competitions

I realise that this could be a bit of a drive but The Bait Bunker located at the Elphinstone Car Park Plymouth holds a weekly fishing competition all year round on Tuesdays and Fridays evenings from 6pm to 9pm £5 Entry Fee the winner takes all. This is a great place to meet people, have a coffee and make new friends. This is accessible for wheelchairs .

For Further information please feel free to contact Margaret on 0736842992 to check if the competition is going ahead as this is **weather dependable**.

If you have any further information to help with marks for those with Mobility issues please let me know.

Many Thanks.

Wetwheels provides the opportunity for all disabled people, including those with profound and complex disabilities, to access the sea in a safe, stimulating and rewarding way on board specially-built, fully-accessible fishing & powerboats.

By offering the opportunity to experience this as active participants we build confidence and improve physical and mental wellbeing.

Cornwall IFCA Reporting

Several of you have been expressing a concern regarding the activities of the inshore commercial fishing community.

If anyone thinks that they have witnessed a potentially illegal activity then they should contact:

Simon Cadman, Cornwall IFCA

Simon says that if anyone wishes to report a fishing incident, they may also phone our office which has an answerphone for out of hours calls:

01736 336842.

Alternatively, email enquires@cornwall-ifca.gov.uk. Reports including any relevant photos are most welcome.

Catch And Release

Recording of live, released fish from shore and using video footage from mobile phone and certified personal scales for all fish species.

The weighing of fish on certified scales will be combined with video footage taken on a mobile phone which clearly shows the whole fish as well as the zeroed scale reading before the fish is placed onto the certified scales.

Scales are to be supported from a tripod or another fixed point prior to zeroing the scales and weighing the fish. If the fish is weighed in a sling, the video footage must clearly show that the sling is empty before placing the fish in the sling. Boat caught fish are to be returned to land before being weighed and then released.

Personal scales are to be certified annually by the club fish recorder by testing against club certified scales. Scales are to be periodically tested to ensure that they remain accurate. Test certification for personal scales to be sent to the CFSA recorder by email when completed. In all cases, video of the weighing of a fish is to be forwarded to the relevant club recorder within 24 hours of capture. The club recorder will review the footage, ensuring that the fish has been weighed correctly and record the weight of the fish in the normal way.

Fish over 100% are to be notified within 48 hours to the CFSA Recorder who may need to see the video footage for identification or validation purposes on request. All fish recorded over the qualifying weights to be included on the fish return form at the end of each month by the club recorder who will mark the fish on the return as being self-weighed and videoed.

Fish species can still be recorded by weighing with the club recorder on club certified scales. All retained fish must be weighed on club certified scales and recorded as per normal. Measuring of fish will now only apply to boat caught shark, smooth hounds and tope with weights calculated by the shark formula.

The use of video is increasingly being used to record specimen fish by other angling organisations and has been used to claim at least one British record. This approach will allow some species to be released alive saving the need to kill fish and making the recording of fish that need to be returned more accurate.

No placing of dead fish into freshwater before being presented to the scales and being formally weighed and recorded. No fish is to be brought to the scales after having been soaked in water. This applies to all CFSA run events or open competitions being fished under CFSA rules. Any fish considered to have been soaked in water will be excluded from weighing into the CFSA or any competition. Any fish soaked and submitted for a record claim will also be disqualified.

Could I ask for your Help

Please could you photo your catch and send it to me at julian.R.walsh@outlook.com to help us to carry on a Male, Female and Junior photo section in the Shockleader and for our Website Please.

Many Thanks

Southern Inshore Fisheries and Conservation Authority

REGULATIONS ON SEABASS FOR FOR RECREATIONAL FISHERS

From 1st March to the end of November, **no more than two Bass** can be retained per fisher, per day.

Any Bass retained must be a **minimum size of 42 cm.**

Bass cannot be taken using a fixed net.

From 1st January to the end of February and in December catch and release only is permitted for recreational fishers for seabass.

These apply whether you are fishing from a vessel or from the shore.

Southern IFCA is working with DEFRA and the Marine Management Organisation to raise awareness of these regulations. These measures form part of the package of regulations to rebuild the fishery.

For more information:

Tel: 01202 721373

Email: enquiries@southern-ifca.gov.uk
