

STOP PRESS IMP RTANT NEWS!

The Save Our Sea Bass campaign for sea anglers to respond to the EU Commission's 2018 Fishing Opportunities consultation is now **LIVE!**

Last year, this campaign was a fantastic success. But this year, the campaign is going slowly, so it is critical that each and every BASS member gets involved.

Please put down this leaflet and go to:

www.saveourseabass.org

-  Reply to the consultation.
 -  Just as importantly: encourage other people to reply too: members of your family, friends, neighbours, fishing pals etc.
 -  If you use social media: please give the campaign regular mentions; retweet frequently and share updates on your own Facebook page.
